

Assignment 0

Please do the following by class on Wednesday, January 16.

1. Read through the syllabus carefully and make sure you understand the course policies.
2. Read through the handout “Expectations of Higher Level Math Courses”.
3. Fill out the “Information Sheet”, and return it to me completed at the beginning of class on Wednesday, January 16.
4. Go to the course web page

<http://www.math.uh.edu/~tomforde/Math2331S13.html>

to make sure you can view the site. There you will find your first reading assignment and list of homework problems (not to be turned in). It will be your responsibility to get the homework from this site, do the problems, and prepare for the weekly quizzes. The first quiz will be on
